OUR APPROACH TO THE ENVIRONMENT

ECOLABELLING

An ecolabel identifies products that have been measured and certified against established environmental leadership criteria. Ecolabelling helps individuals, corporations and governments make informed purchasing choices that reduce their ecological footprint.

Companies whose products and services have been certified by various ecolabelling programs are considered as being less harmful to the environment while still meeting or exceeding applicable safety or performance standards. Of specific interest to the JanSan Industry are the following standards and certifications currently in effect.

GREEN SEAL

Green Seal is an American non-profit environmental labelling organization that awards a "Green Seal of Approval" to products found to cause significantly less harm to the environment than other similar products.

FSC

The FSC Recycled label was introduced in order to recognise the important role that recycling paper and timber plays in protecting the world's forests. Unlike general 'recycled' claims, which require no verification, the FSC Recycled label provides assurance that all the wood or paper in a product has been verified as genuinely recycled.

UL ECOLOGO

EcoLogo is North America's most widely recognized and respected certification of environmental leadership. By setting standards and certifying products in more than 250 categories, EcoLogo helps identify, trust, buy, and sell environmentally preferable ("green") goods and services.

WASTE MANAGEMENT AND RECYCLING

In accordance with the program, our purpose is to promote and to prevent waste of potentially useful materials, by reducing the need for conventional waste disposal. Our goal is to decrease our environmental footprint by reducing our waste and developing treatment, recycling and recovery solutions.

LEED

LEED® Canada for New Construction and Major Renovations version 1.0 is an adaptation of the US Green Building Council's (USGBC) Leadership in Energy and Environmental Design Green Building Rating System (LEED®), tailored specifically for Canadian climates, construction practices and regulations.

EKO

Certification attributed to certain INO Solutions professional hygiene solutions attesting that they are ecological and as such, safer for the environment.

SUITABLE FOR FOOD PLANT USE IN CANADA

Products that have this logo are suitable for food plant use in Canada. The Canadian agency develops and delivers programs and services designed to protect Canadians from preventable food safety hazards and to ensure that food safety emergencies are effectively managed.

USEFUL FEATURES

01

RELATED PRODUCT REFERENCE

Look for this symbol to easily identify and locate related or complementary items.

**WASTE CONTAINERS
ALSO AVAILABLE!
PLEASE REFER
TO P. 242**

02

EDUCATIONAL RESOURCES

Detailed statistics, data and information of particular interest to the JanSan industry are identified by this symbol:

Did you know that based on a recent study*, the most unsanitary location in your office is your workstation?

OFFICE TOUCH POINTS	AVERAGE BACTERIA COUNT*
Phone	25 127
Desktop	20 961
Keyboard	3295
Mouse	1676
Fax Machine	301
Copy Machine	69

* Source: Etude provenant de l'University de l'Arizona par Dr. Charles Gerba, "Germs in the Workplace," 2006.

03

RATING SYMBOLS

These rating symbols will help you navigate the 2000+ products; to easily identify the lowest price, best value or premium items.

As part of one of the most influential JanSan groups in Canada, we are able to negotiate the best pricing and pass it on to you.

Our commitment is to provide our customers with the most complete package of green-friendly and efficient products at the best value. Look for this symbol for great value.

When performance and efficiency are major factors in your product selection, look for this symbol denoting the best quality.

04

VIDEOS AND TIPS

With your smartphone and any Barcode Reader App, you have direct access to many educational materials, including videos and tips, so you can learn more about the product features and benefits.

1. Locate the QR code

2. With your smartphone, scan the QR code.

3. Watch the video.

COMPLEMENTARY TOOLS

05

WEB SITE

Our web site is developed with the latest technology, offering a user-friendly and informative experience featuring a variety of strategic advantages. It includes the following elements:

FAQ

A goldmine of information available at your fingertips. Over 3000 answers to frequently asked questions regarding subjects such as Green cleaning, floor and carpet care, general homecare, health and disinfection and other miscellaneous subjects.

DETAILED PRODUCT DATASHEET

For every product, an online datasheet is available in printer friendly PDF format. Every datasheet includes a picture of the product, as well as its information and characteristics.

SDS

Safety datasheets for every chemical and biotechnological product are available online.

WHY CHOOSE INO SOLUTIONS FOAM HAND SOAP?

- 1.** Foam soap generated has 20 times the volume of traditional soap. Therefore, the user has the perception of having more soap in their hands.
- 2.** Foam soap has no contact with the dispenser. Cross contamination is reduced.
- 3.** Cartridges are 100 % recyclable. You get the opportunity to go green by choosing a foaming soap certified as an ecological product that contains no allergens.
- 4.** Foam soap minimizes water wastage because it is easy to rinse. Using a foaming soap can reduce up to 50 % of waste and water usage.

DISINFECTANT CLEANER

IT IS COMMON PRACTICE **TO INTERCHANGE THE WORDS DISINFECTION AND SANITIZATION**, DESPITE THE FACT THAT BOTH HAVE THEIR OWN TECHNICAL CHARACTERISTICS THAT ARE WELL DEFINED. IT IS IMPORTANT TO UNDERSTAND THEIR DISTINCTIONS.

DISINFECTION

The process of disinfection means to eliminate all pathogenic micro-organisms (bacteria, viruses, fungi, bacterial endospores) at 99.99 % found on inanimate surfaces. When disinfecting, you lower the risk of a potential infection caused by the microorganisms since you reduce the number of pathogenic bacteria. This action does not necessarily eliminate all the microorganisms, but reduces them to a level where the pathogenic bacteria can no longer initiate infection.

SANITIZATION

Agents used for sanitization are usually used in destroying the microorganisms on surfaces in order to make them sufficiently safe to be used. This is one of the key aspects you should understand when looking at disinfection vs sanitization. Unlike the disinfectant, a sanitizer does not necessarily eliminate the pathogenic microorganisms. Consequently, compared to a sanitizer, a disinfectant is essentially used to kill pathogenic bacteria.

INO MED 9 NEUTRAL DISINFECTANT

SUITABLE FOR FOOD PLANT USE IN CANADA.

Multi-purpose concentrated germicidal, fungicidal, virucidal detergent and deodorant is effective in hard water up to 400 ppm plus 5 % organic serum. Disinfects, cleans and deodorizes in one labour-saving step.

DILUTION RATES

Concentrated cleaning solutions can lead to savings of up to 35 % on direct product costs while reducing the space required to store them.

WHAT IS PRECYCLING?

Recycling is a good way to reduce your impact on the environment, but it's even better to eliminate the need for recycling. Precycling aims to reduce waste to a minimum. Using professional concentrated cleaning products reduces gasoline consumption related to transportation, storage costs and enables a substantial savings in plastic containers.

CARPET EXTRACTORS

Clarke
by Nilfisk

EX20

EX20™ portable extractors are the culmination of a major engineering and design initiative of Clarke that emanated from direct field input of cleaning technicians who used high performance portable extraction machines every day. The EX20 represents a dramatic step forward in implementing unique, productivity enhancing features that considered even the most minute detail.

CARPET EXTRACTORS

CLEAN TRACK L24 24" (WALK-BEHIND)

The Clean Track® L24 walk-behind extractor provides you with increased productivity and industry-leading performance capabilities. Featuring LIFT™ (Low-moisture, Indirect spray, Fast dry time, True cleaning) technology, the Clean Track L24 utilizes a patented spray system to achieve dry times of 30 minutes or less—making daytime cleaning in education, healthcare, and hospitality facilities a viable option.

AIR MOVERS

AM2400D

A 3-speed induction motor with thermal protection delivers up to 2,400 CFM air flow while minimizing energy usage. Four position settings provide flexibility for directing air movement while the built-in power outlet allows daisy-chaining up to three units for maximum efficiency. The AM2400, with an optional trolley kit with transport wheels and retractable handle, is lightweight and stackable, making it easy to carry, store and transport. Protected by a strong roto-molded housing, the AM2400 is robust and ready to work.

CHEMICAL DISPENSER FOR WAREWASH

KNIGHT
IBEX
by Nilfisk

UMP-200L

The UMP Classic provides the options of probe or probeless detergent control through advanced microprocessor design. With the capability of controlling up to two products, and the choice of liquid or dry detergent, most warewash applications can be accommodated.

CODE(S)

KNI-716291007

DISHWASHERS

AH-C COMMERCIAL DISHWASHER LOW TEMPERATURE

The CMA Energy Miser AH Model Straight Through Design Chemical Sanitizing Commercial Dishwasher meets NSF, UL and CSA sanitation and construction standards without the use of booster or tank heaters. Cleans 40 racks / 160 covers per hour. Economical to operate since it uses only 1.7 gallons of water per cycle.

Racks per hour: 40
Covers per hour: 160

CODE(S)

CMA-C270 CORNER

CMA-180 COMMERCIAL DISHWASHER HIGH TEMPERATURE

There are many features to the 60 Rack/Hr DoorType Corner Dishwasher (CMA-180CB) by CMA Dishmachines that make it ideal for medium-sized food service establishments. For starters, it uses hot water to sanitize dishes, so it won't leave a chemical residue, like low-temp machines. Also, it comes with a built-in booster heater that raises the incoming water temperature to the proper range for high-temp sanitization (180°-195°F).

Racks per hour: 60
Covers per hour: 240

CMA-180SB	STRAIGHT WITH BOOSTER
CMA-180C	CORNER
CMA-180CB	CORNER WITH BOOSTER

DISHWASHERS

CMA-180UC COMMERCIAL DISHWASHER HIGH TEMPERATURE

The 30 Rack/Hr Undercounter Dishwasher (CMA180-UC) from CMA Dishmachines is ideal for smaller commercial kitchens that serve less than 50 meals an hour. This comes with a built-in booster heater to assure that the rinse water is at the required 180 °F. The unit also features an automatic soil purging system that traps food scraps in a separate debris tray, which prevent it from clogging the drain.

Racks per hour: 30

CODE(S)

CMA-180UC	WITHOUT DISPENSER
CMA-180UCWD	WITH DISPENSER

CMA L-1X/L-1X16 LOW TEMPERATURE

Under counter dishwasher at low temperature. The stainless steel construction ensures long life and years of trouble free operation. Economical, it uses only 1.7 gallons of water per cycle. 16" door opening on the L-1X16 allows the washing of large items. The door opening of the L-1X is 12-1 / 8".

Racks per hour: 30

Covers per hour: 180

CODE(S)

CMA-L1X	L-1X
CMA-L1X16	L-1X16

CMA GL-X LOW TEMPERATURE

Dishwasher for low temperature countertop glasses. The GL-X is easy to use, fast and efficient, while retaining water, energy and chemicals.

Racks per hour: 30

CODE(S)

CMA-GLX

DILUTION SYSTEMS

RTD DISTRIBUTION SYSTEM WATER SUPPLY HOSE

The RTD® dispensing system is safe and easy to use. The patented design allows proper use by eliminating installation errors from the supply line and the nozzle. Even the ergonomically designed handle offers comfort and ease of use. When the container is empty, simply remove the dispensing head from the Quick Disconnect Adapter and discard it. The RTD® distribution system can be recycled in local recycling policies.

CODE(S)

DIV-3202687 water hose without adapter for RTD system

J-FILL QUATTROSELECT

The J-Fill QuattroSelect chemical dispensing system is a wall-mounted dispenser that accurately dispenses four products into bottles, buckets or floor care machines. The J-Fill platform is safer, more reliable, more accurate, and more sustainable than any other chemical dispensing system in the industry.

PRO-WATCH 510T MICROPROCESSOR BASED CHEMICAL DISPENSING SYSTEM

Pro-Watch is a microprocessor based chemical dispensing system for grease traps, drains, and odor control. This easy-to-use system stores up to 20 dispensing events per day, programmable by day, minutes or seconds. With an addition of the Misting Kit, Pro-Watch becomes an advanced chemical spray system designed to spray deodorizing or sanitizing mist in a variety of applications such as trash compactors, roll-a-way garbage bins and other trash depositories.

CODE(S)

- KNI-8600395-07

MX HOSPITALITY

MX Hospitality proportioner can dilute chemicals to 16 different rates. It is capable of handling 100 PSI pressure and 140 degrees Fahrenheit temperature. The compact, durable dispenser features an ABS cover and polypropylene chassis. Multiple units can be easily chained together.

ACCESSORIES

TOILET BOWL BRUSHES

TOILET BOWL BRUSHES

CODE	DESCRIPTION
ATL-906	Acrylan toilet bowl swabs are designed to be used with acid bowl cleaners. Their soft swabs don't scrub, but instead release acid solution quickly onto the surface of the bowl to eliminate dripping or splashing.
ATL-908	Acrylan toilet bowl swabs are specifically designed to be used with acid bowl cleaners. The material of the swab releases liquid quickly to eliminate dripping and splashing. These bowl swabs feature a cone-shaped hood that slides down the handle to cover the acid-covered swab after use, allowing the user to wring it safely.
ATL-823	The most popular industrial toilet bowl/urinal brush, with medium-coarse fibres for good scrubbing action. Although the fibres are acid-resistant, we recommend using a soft bowl swab for the application of acid cleaners because the stiffer bristles of this brush have a flicking action that may inadvertently splash the user with acid or caustic solution.
M2P-BR-WM2107	Set of long handle toilet brush and bowl brush caddy. Brush only: M2P-BR-WM2106

BOWL BRUSH CADDY

CODE	DESCRIPTION
ATL-816	A white plastic bowl brush caddy sits sturdily on a wide base with non-skid bottom, for convenient storage of our round bowl brush (ATL-823).
ATL-910	This white plastic caddy safely stores our Acrylan bowl swabs and also has an adjustable holder for storage of the bottle of cleaning chemical.

TOILET PLUNGER

CODE	DESCRIPTION
ATL-1150	This professional-grade plunger has a massive capacity black rubber cup that provides a snug fit even in oddly-shaped toilet bowls. Funnel can be retracted for use in flat sinks, wash basins and tubs. Funnel is 5" high and is attached to a 20" wooden handle.

WASHROOM CLEANERS

ACCESSORIES

VEHICLE BRUSHES

VEHICLE BRUSH POLY-X, 10"

Filled with X-shaped polyester fibre for maximum water-holding capabilities and durability. Vinyl bumper protects surfaces from being scratched. Ideal as a vehicle brush or window brush.

CODE

ATL-318

VEHICLE BRUSH ACID-RESISTANT, 10"

10" structural foam flow-through block is heavily filled with medium stiff, acid-resistant, polypropylene fibre. Excellent for cleaning large areas on industrial vehicles such as cement trucks. Use with an acid resistant handle or any standard threaded or tapered handle, or extension pole.

CODE

ATL-315

VEHICLE BRUSH SYNTHETIC HORSEHAIR, 10"

The 10" foam block is densely filled with synthetic horsehair fibre. Synthetic horsehair is crimped to hold large amounts of water and softly move across delicate surfaces to remove grime and soil. Use any standard threaded or tapered handle. Can also be used with an extension pole or waterfed pole.

CODE

ATL-352

VEHICLE BRUSHES

BRUSH

POLY-X, PROFESSIONAL BRUSH, 20"

Filled with X-shaped polyester fibre for maximum water-holding capabilities and durability. Longer, 20" handle makes it ideal for scrubbing hard-to-reach areas of vehicles, such as truck side-view mirrors and around doors and in wheel wells.

CODE

ATL-387

HANDLE FOR VEHICLE BRUSH

FLOW-THROUGH HANDLE

60", FOR VEHICLE BRUSH

A such-as handle is indispensable when large washing jobs are needed, whether vehicles and windows or large areas of asphalt or concrete.

CODE

ATL-353

FLOOR BRUSHES

DECK BRUSH 11", WITH SQUEEGEE FOR SMALLER AREA

The 11" Union deck brush with squeegee is perfect for light to heavy scrubbing of smaller floor surfaces and uneven, wood or grouted flooring.

CODE
ATL-336

FLOOR BRUSH 10", DUAL LEVEL, FLOOR & TILE SCRUB

This 10" dual level scrub brush is filled with stiff blue polypropylene fibres. A V-shaped block allows the bristles to clean in corners effectively. This brush can be used with either a standard threaded or flow through fountain handle.

CODE
ATL-5317

HANDLES FOR SCRUB BRUSHES

TAPERED WOOD HANDLE		
CODE	DESCRIPTION	SIZE
ATL-2514 ATL-2465	Wooden, Use on window & vehicle brushes	54" 60"
ATL-52506 ATL-52513	Wooden, handle can be used for most deck scrubs, floor squeegees, and stable brooms that accept a tapered handle.	54" 60"
ATL-36800	This wooden adaptor converts threaded poles into tapered to fit window tools such as squeegees and t-bar scrubbers.

ACCESSORIES

SCRUB BRUSHES

UTILITY SCRUB

Short or long handle, all-natural or synthetic, these brushes have medium to coarse stiffness depending upon fibre fill. Natural fibres work well in high heat applications and the all-synthetic brushes offer good chemical and moisture resistance.

NATURAL

CODE	DESCRIPTION	SIZE
ATL-381	Tampico, Medium action	20"
ATL-398	Tampico/Palmyra, Coarse action	20"

The structure of natural fibre is open, meaning it absorbs water readily and performs well where heat may be present. These all natural materials are also biodegradable.

SYNTHETIC

CODE	DESCRIPTION	SIZE
ATL-838	Synthetic, Blue, Medium action	20"
ATL-818	Synthetic, Blue, Medium action	9"
ATL-848	Synthetic, White, Coarse action	20"
ATL-828	Synthetic, White Coarse action	9"

The structure of synthetic fibres is closed, meaning it absorbs very little water. The synthetic polypropylene utility brushes are a wood-free sanitary tool. **These brushes can be used in the food service industry**

FLOOR BRUSH FOR GROUT AND CREVICE

CODE	DESCRIPTION
ATL-5352	Grout and Crevice Brush Upsweep handle works the black nylon bristles into grout and crevices. Excellent to remove dirt, grime and residue.

ACCESSORIES

SCRAPERS

HEAVY DUTY FLOOR SCRAPER WITH 48" LONG HANDLE

Remove gum, tape or other dried-on gunk with this heavy-duty long-handled floor scraper. Blade is 4" wide and will not gouge or scratch floors. The angled head is ergonomically designed and the 48" handle means no stooping or kneeling to remove residue from floors.

CODE

ATL-37556

PICKUP TOOLS

NIFTYNABBER TRIGGER GRIP

The universal clamp. For the universal removal of waste above or below.

- Ergonomic pistol grip.
- 360° rotating pliers.
- Magnetic clamps with large opening.

CODE

WCS-99-60-05

GRIP AND GRAB

The multi-purpose pickup tool saves your back and can be used indoors and outdoors. Comfortable, ergonomically designed handle and rubberized jaws allow easy retrieval of objects without bending.

CODE

ATL-37150

FLOOR SQUEEGEE

INDUSTRIAL FLOOR SQUEEGEE

This industrial floor squeegee features a rust-resistant, lightweight, one-piece aluminum channel. Stainless steel self-tapping screws hold the blade firmly in place.

CODE
